**AFTER YOU HAVE LIVED A CERTAIN NUMBER OF YEARS, ie. YOU GET OLD, YOU KNOW WHEN SPRING IS IN THE AIR. I CAN SMELL SPRING - IT IS HERE!**

*Check out our notice at the end of this eLetter for upcoming CAR events.*

CLASSIC PORSCHE RESTORATION (CPR) IS A DIE HARD FAN OF PORSCHE CLASSIC PARTS. Why? Because they fit right.

Now we have *Porsche Classic Motor Oil, Brake Fluid, and Gas Additive.*

When Porsche makes a product for their cars you have to trust that it is properly developed and tested to be right for Porsche Cars.

Classic Porsche products are made specifically for all the aircooled Porsche's, including the 993. These products are available through all Porsche dealerships.

CPR uses Porsche Classic Motor Oil, Brake Fluid, and Gasoline Additive.

## **WORKING SPACE BECOMING A PREMIUM at CPR.**

Is there ever a point when you can have too many Porsche's undergoing restoration? Well, here at CPR you can never have too many Porsche's. We fit every Porsche in need into the restoration process. However; space is at a premium, resulting in a re-organization of all our indoor space. The Paint Prep Shop is the latest undergoing a redo, including new cabinets and benches.

## WHERE DID THIS WHITE PORSCHE COME FROM AND WHY IS IT HERE?

It seems when you are a true "Porsche Person", and have had your Porsche worked on by none less that six other "restoration shops", there comes a time when reality catches up with you and you just want your Porsche restoration done correctly. What are your choices? Take your Porsche to Classic Porsche Restoration (CPR) of course!

For this Porsche, CPR can not justify going backwards to fix some of the problems we see, particularly those evident hiding under the "paint job." But CPR can make sure the assembly going forward is better than factory! CPR has installed the front and back glass, sound proofing, and carpeting. A complete interior is being stitched and an engine refurbish is planned as of this writing.
